Clinical Trials Newsletter

Clinical Trials provides support to Investigators, Research Nurses, and Study Staff at the Colleges of Medicine (Tucson & Phoenix), Pharmacy, Nursing, and Public Health. Our team of experienced and knowledgeable Research Administrators and Coordinators can assist you with all aspects of Clinical Trials from feasibility through closure!

[Click here](#) for a checklist and more information about approvals you may need to initiate your project, and check out the [Coordinator Corner](#) for additional resources and tools!

Announcements

Simple Solutions from OnCore Support:

If a subject is a screen failure, the Subject Status in OnCore should be "Not Eligible".

Complete the fields in the Eligibility tab, but do not enter the following status dates: On Study, On Arm, On Treatment, Off Treatment, On Follow-up or Off Study.

If the subject status is anything other than "Not Eligible" you can go back and remove the above dates to correct the Subject Status.

Clinical Research Professionals Workshop:

This two-day intensive series is aimed to enhance your expertise in coordinating clinical trials

More information can be found [here](#).

OnCore Access and Use Policy:

More information on this policy can be found [here](#).

We've Moved:

Research Administration has moved to the Office of Research and Partnerships and our new name is **Clinical Research Administration!**

The UAHSContracts@email.arizona.edu email address has been updated to ClinicalContracts@arizona.edu.

Please make note of these new updates and be on the lookout for more subtle changes to come.

New University of Arizona ClinicalTrials.gov Contact:

A new centralized email inbox has been created for ClinicalTrials.gov inquiries and support requests.

You can now reach the non-Cancer Center University of Arizona ClinicalTrials.gov administrators at UA-ctgov@arizona.edu.

Banner Masking Policy:

Beginning January 1, 2026 universal and continuous masking will be required for all UA research staff and team members in all Banner locations where patients may be present (patients not required to mask in their own rooms).

CITI GCP Training Update:

The Good Clinical Practice (GCP) modules available through the CITI Program have been updated to align with the International Council for Harmonisation (ICH) E6 (R3) guidelines.

How to enroll in the updated course:

1. Select **Add a Course**.
2. Select **Good Clinical Practices (GCP)**.
3. If you have *never* completed the initial GCP training with the University of Arizona before, select Option 1: **GCP for Clinical Investigations of Drugs and**

Devices (FDA) Initial Training Course.

4. If you have previously completed the initial GCP training with the University of Arizona, select Option 2: **GCP for Clinical Investigations of Drugs and Devices (FDA) Refresher Course.**
5. Your selected training should now be visible under **Courses Ready to Begin.**

Fully compliant individuals will see this statement on their Completion Report "*This GCP training contains all of the attested CITI Program modules from the GCP for Clinical Trials with Investigational Drugs and Medical Devices (U.S. FDA Focus) Version 3 or Version 4.*"

*These are the ONLY training versions that are compliant with ICH E6 (R3).

For questions and concerns contact vpr-irb@arizona.edu.

OnCore Users - Department Update:

If you have changed departments, and you still need access to **OnCore**, please submit an updated **OnCore User Agreement** with your new supervisor's signature. This will help ensure that your access to OnCore is not interrupted.

OnCore Billing Compliance Requirements:

- **Compliance**: The billing designation is set using Medicare Billing rules, input from PI, approval by Banner (the medical biller), and the signed contract between the sponsor and the University of Arizona.
- **Financial Equality**: Each procedure must be billed the same way for all subjects. If a procedure is billed to insurance for one subject, the sponsor cannot pay for that same procedure for another subject.
- The **correct** billing designation is built into the OnCore calendar, so the CRC can confidently log visits and procedures.
 - If the CRC has a question or concern about a billing designation, please reach out to OnCore Support (OnCoreSupport@arizona.edu), so we can review the situation and discuss with the coverage analysis/budget team.

Inability to follow the requirements will result in remediation including training and supervisor inclusion.

Banner Hospital Billing Update:

November 2025 bills have been reviewed and emails have been sent out to the corresponding UA Departments via UA Box Health. December 2025 invoices will be distributed by the second week of February 2026.

Additional resources available on our [website](#)

OnCore Training

OnCore Trainings in EDGE:

OnCore users can complete training modules according to their own schedule or retake refresher trainings when needed.

Subject Management Training is now available in EDGE Learning for individual completion.
