

Conducting Research with Banner Health

Feasibility Review
Process

CTSM Department Assignments

Laura Tank

Surgery, Pediatrics, Medical Imaging, Ortho, Anesthesiology, Pathology, Ophthalmology, Biomedical/Biosystem Engineering, Gastroenterology, Center for Integrative Medicine, Cardiology & Sarver Heart

Sara Knight

Pharmacy; Nursing; Public Health; OBGYN; Emergency Med; Neurology; Psychology; Psychiatry; Family & Community Med; A2DRC; Az Center on Aging; Arthritis Center; Animal & Biomedical Sci; Med Administration; COM Academic & Student Affairs; Geriatrics, General Internal Med, and Palliative Medicine; Inpatient Med; Pulmonary, Allergy, Critical Care, & Sleep Med; Rheumatology; Translational & Regenerative Med; Genetics, Genomics, & Precision Med; Urology

*Sydney
Goosen*

Adult & Pediatric Oncology, Radiation Oncology, Clinical Teaching, Immunobiology, Endocrinology, Cellular & Molecular Medicine, Nephrology, Physiology, Dermatology, Hematology/Oncology, Infectious Disease

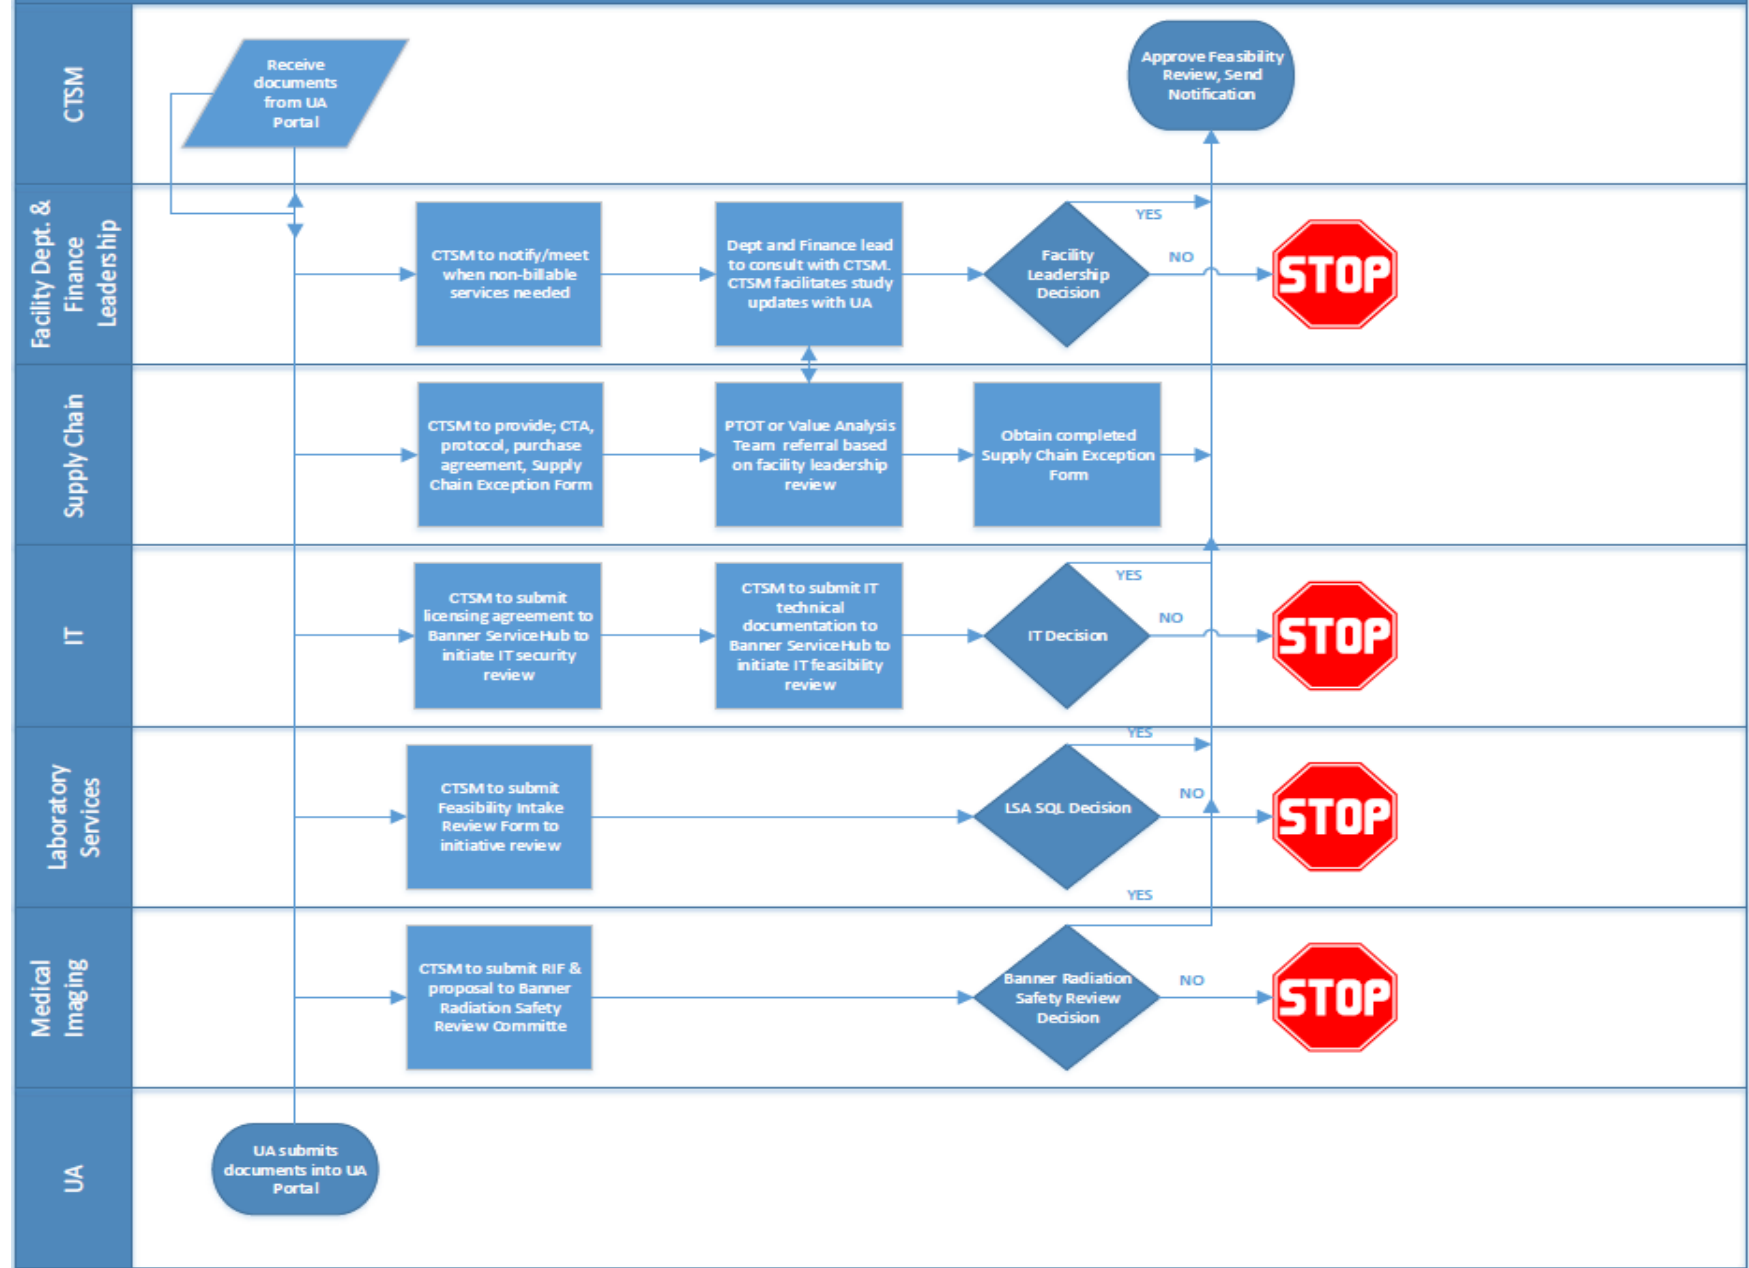

CTSM

Key Functions

A quick look at the process

Banner – UA Feasibility Review Process

Friendly Reminders

1. It is critically important to submit complete and accurate information in the RIA. Whenever we receive an incomplete application, it adds considerable time to the review process.

- Ensure all fields, check boxes, etc. are complete.
- If a drug or device study, ensure appropriate documentation is included
- Avoid leaving blanks. Insert NA or “Not available at this time”

2. The operational complexity of the study and the number of impacted units will affect turnaround, as we must communicate with each unit to obtain approval.

The process of determining these costs with facility operations and finance oftentimes cause some delays. It is important that we know of these needs upfront/ASAP.

- Are laboratory or medical imaging services required?
- Are IT services required (hardware, software). Is hardware/software FDA approved?
- Who is supplying drug or investigational medication, placebo or comparator drug? What pharmacy support is required?
- Are non-billable services required? (Banner staff, equipment, space/lease, etc.)
